

Child Seat Restraint Installation Instructions

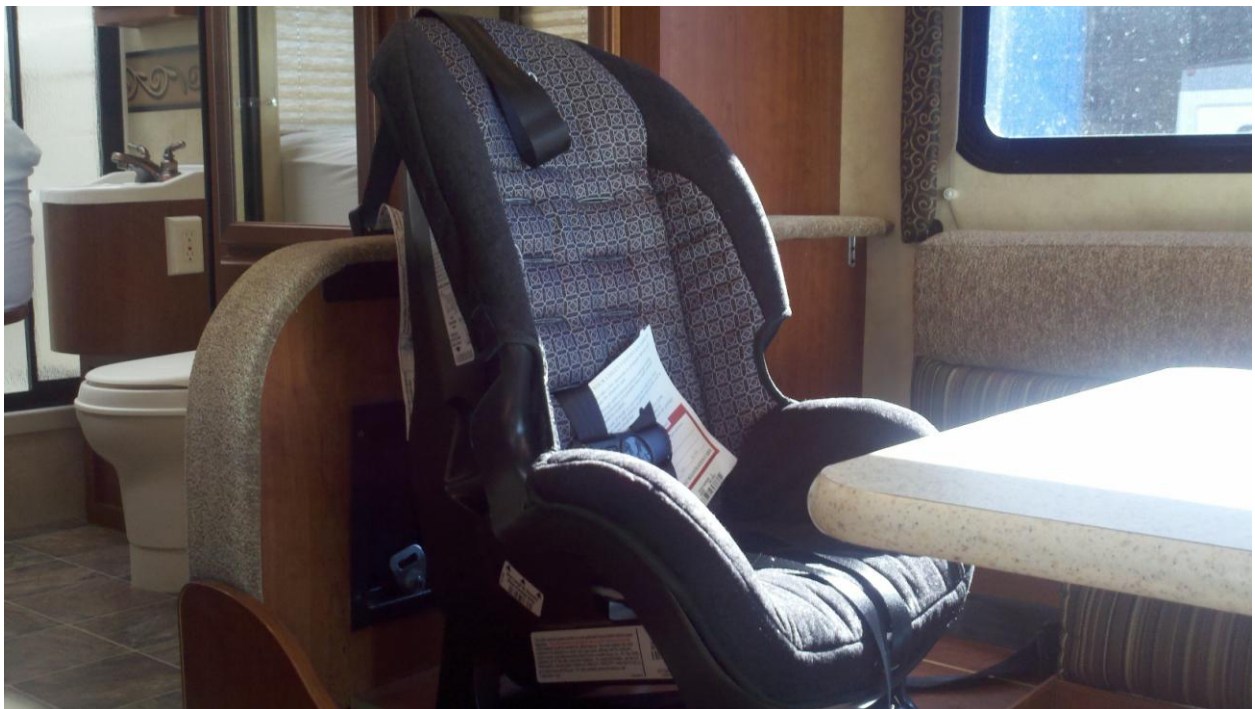

Picture #1 – Go to the “Front Facing” bench seat in the dinette area

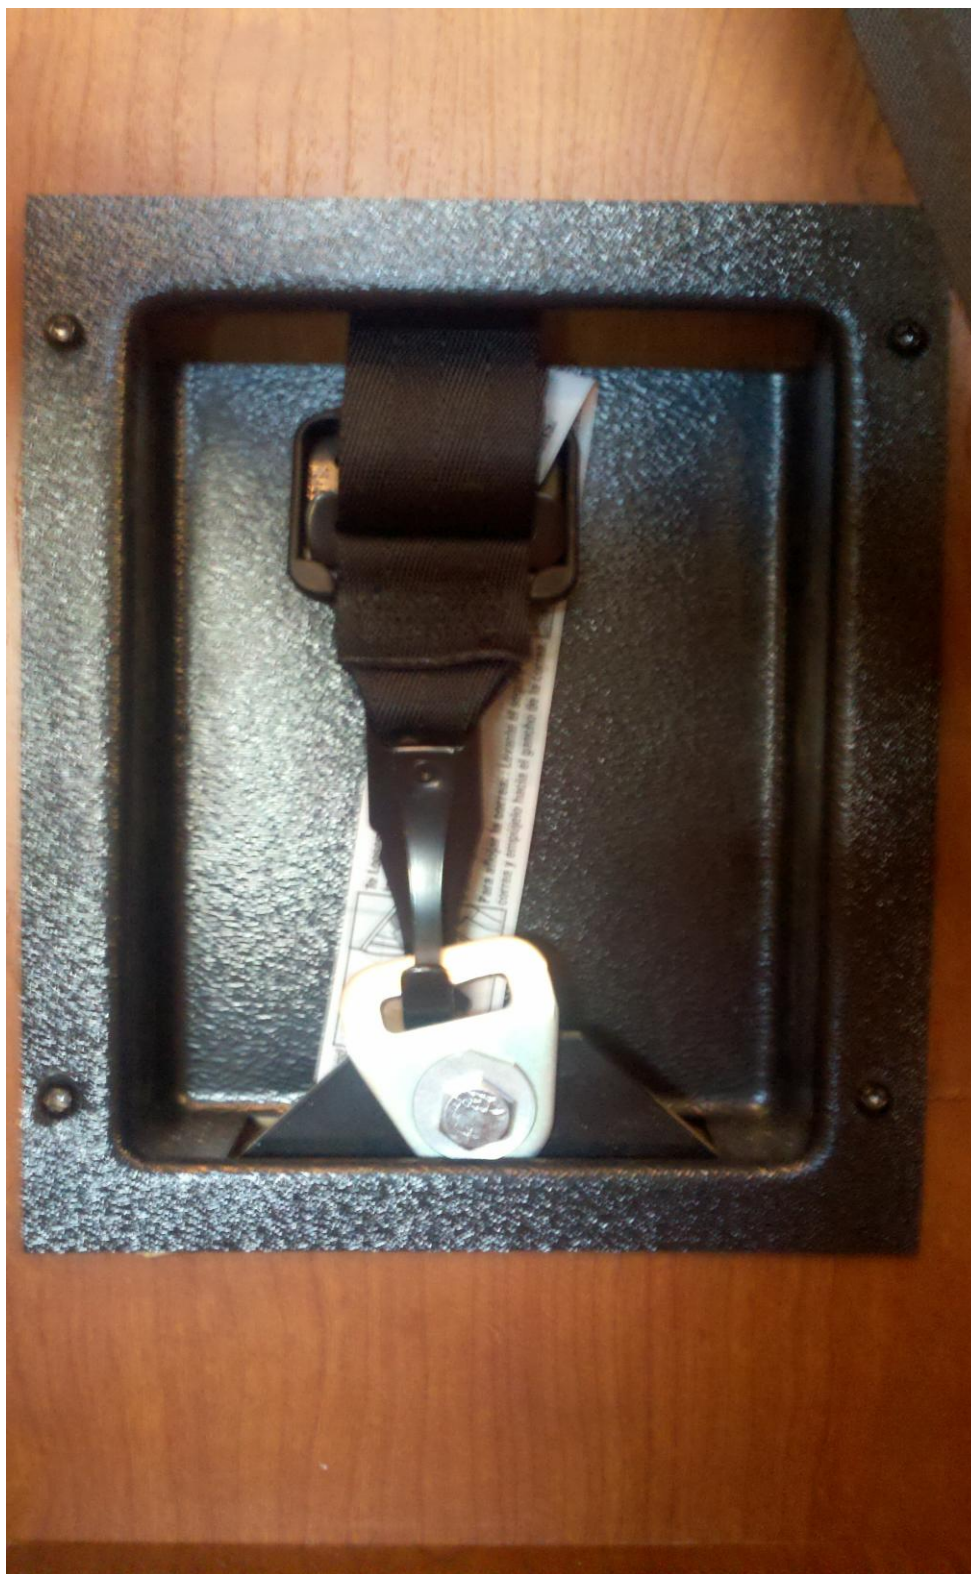

Picture #2 – Remove the back and bottom cushions

Picture #3 – Locate the hole in which the “Child Seat” Tether will go down into

Picture #4 – Locate and attach the tether to the top of the baby seat.

Picture #5 – Pull the tether through the top hole on the bench seat and clip it onto the metal anchor point located in the back of the bench seat.

Picture #6 – Pull the tether strap tight

Picture #7 – Attach the regular seat belts through the holes across the bottom of the child seat

This completes the installation of the child seat.
